INTRO

I am a driven and motivated individual with a focus on product management, and a strong background in technology, software engineering, and innovation.

My work style is characterized by stress resilience, reliability, a strong work ethic, and fast learning ability, rooted in my enthusiasm to discover new topics. Peers describe me as organized, collaborative, and supportive.

Through years of work experience and my studies, I have developed an enthusiasm for technology-focused product management. Backed by my technical knowledge I excel at the execution of a product vision and collaborating with developers.
